Tshireletso Mining Engineering Group (PTY)LTD

Overview

Tshireletso Mining Engineering Group (PTY) LTD is a company registered and numbered (2021 / 787617 / 07). TMEG (PTY)LTD was established in 2021. It focuses on partnering on sustainable delivery of initiatives in the government sector (local, provincial, and national), the mining industry, private sector, and communities (both rural and urban) nationally and internationally. The company is driven by commitment to innovation, quality service, professional discipline and putting the client's interests first. TMEG (PTY) Ltd has strategic alliances with companies that have expertise in the mining geological operations, post mining rehabilitation, engineering, environmental impact assessment, horticultural development & maintenance, dust sampling, community outreach, public participation processes and social development, general waste management and recycling and various other related disciplines.

Our Mission

- To go beyond customer expectations through superior service provision, and to become the strategic partner in social, environmental, and economic service delivery initiatives.

Our Vision

- To deliver partnership service delivery initiatives along the sustainable delivery principles with complete satisfaction to both the client and beneficiaries.

Our Values

- Integrity
- Transparency
- Professionalism
- Quality

Engineering and Mining Experience

We believe that Mining is Engineering:

Our Advantage:

- We specialise in the provision of vetted skilled and unskilled labour to meet our clients' specific requirements.
- Our recruitment and placement policies are consistent with the South African Labour Laws.
- We have top class geologist and environmental specialists
- We are new with paramount experience

Miners and Artisans:

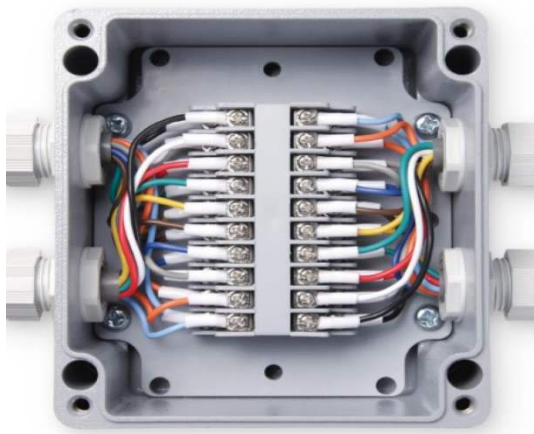

Skilled and Semi-skilled Workers:

Our Primary Core Specialty

Automotive Solutions:

- Our qualified and experienced Auto Electricians and Mechanics are specialists in repairs, maintenance, diagnostics and software programming of Heavy Earth-Moving Equipment.
- We supply, install and custom configure the machine hardware as per customer requirements.
- Our qualified technicians are here to ensure that you have minimum downtime on machinery.
- We also supply HEME parts and component

Mining Equipment and Machinery Solutions:

- We are specialists in surface Earth Moving and Underground Mining eEquipment.
- We repair and maintain Trackless Mobile Machines as per OEM specifications.
- HME Engine rebuild
- Our supply network gives us the advantage to offer you competitive pricing on our spares and consummables.

➤ Structural Repairs:

- We repair transmission, articulation and buckets for Feeders, Front End Loaders, Dozers, Shovels and Graders, Trucks and Drills.

Trackless Mobile Machine Solutions:

Equipment Speciality

- Our teams have hands-on experience in:

- We aim to provide you with reliable service.
- 24Hr break down and shutdown service.

Heating Ventilation and Air-condition:

Commercial Air Conditioning

- Design, sales, service, installation.

Domestic Air Conditioning

- Design, sales, service, installation.

Ground Sourced Heat Pumps

- Design, sales, service, installation.

We offer planned maintenance and breakdown service for all your air conditioning needs. ensure you are running smoothly.

Commercial Refrigeration

- Design, manufacture, sales, service, installation. Industrial/commercial specialized refrigeration process cooling and automation. Specialized environment applications, laboratories, health facilities, clean rooms etc. Refrigeration and dehumidification projects for primary producers and processing facilities.

Fabrication Solutions:

Boiler making and Welding

- We are specialists in Surface HEME and Underground Mining Equipment Fabrication, Maintenance and Structural repair solutions e.g, HEME and Plant Structure
- We install, weld, fabricate liners, pipelines, crusher plant, chutes, bins as per customer requirements.
- We supply consummables and equipment for:

➤ Arc

➤ TIG

➤ Carbon Dioxide

➤ Oxy-Acetylene

➤ Brazing

➤ Plasma Cutting

Mechanical Engineering Solutions:

➤ Gear Boxes

➤ Power Packs

➤ Drives

➤ Rigging

➤ Power Tools

➤ Valves

➤ Hydraulics

➤ Compressors

➤ Pneumatics

Plant Solutions:

Our qualified Engineers, Artisans and Operators are experienced in production plant activities that include but not limited to:

- **Crusher Installation and Repairs:**
- **Feeders Installation and Repairs:**
- **Drives Installation and Repairs:**
- **Cyclones Installation and Repairs:**
- **Screens Installation and Repairs:**
- **Magnetic Drum Separators Installation and Repairs:**
- **Gear Boxes Installation and Repairs:**

SECONDARY SPECIALITY MINING

- Monthly and Quarterly inspections of the pit and waste dumps
- Pit slope design analysis (2D limit equilibrium)
- Slope stability monitoring recommendation
- Mine design criteria validation
- Face mapping and Kinematic analysis
- Geotechnical Hazard Awareness Training

Other Services Conveyance Solutions:

Our qualified and experienced Artisans are specialists in repairs, maintenance, and construction of conveyance systems.

- Conveyor Belt Structure Construction and Maintenance
- Conveyor Belt Splicing Gearbox Repairs
- Conveyor Feeders Refurbishment
- Conveyor Belt Levelling and Lining

Mining and Engineering Supplies:

We strive to provide you with quality original products , spares and equipment.

Our range includes but is not limited o the following:

- Wide range of personal protective equipment (PPE)
- Electric cables, motors, and electrical accessories
- Bearings, pumps, and valves
- Machinery
- Lifting equipment and accessories
